ANNIRYAT VALLEY PVT LTD

Export Product Showcase & Technical Specifications

Premium Export Quality

Company Profile: Anniryat Valley Pvt Ltd specializes in premium agro-commodities, farm-fresh and frozen produce, whole grain flours, natural sweeteners, and high-grade agricultural fertilizers for international trade.

1. Agro Commodities

Rice & Wheat

Pulses & Maize

Edible Oil & Cattle Feed

Product Item	Export Grade Specification & Quality Standards
Rice	Basmati & Non-Basmati (Low moisture < 12%, minimal broken grains < 1%, double polished).
Wheat	High-protein milling wheat suitable for bakery, pasta, and industrial flour mills.
Maize	Yellow & White maize suited for human consumption and livestock feed mills.
Pulses	Cleaned, machine-graded, and polished lentils and chickpeas packed with protein.
Edible Oil	Refined and cold-pressed edible oils processed under strict hygienic standards.
Cattle Feed	Nutritionally balanced high-protein feed formulations to optimize livestock yield.

2. Vegetables & Fruits

Fresh Vegetables

Fresh & Frozen Fruits

Dry Fruits & Nuts

Sub-Category	Specifications & Preservation Standards
Fresh Veg	Farm-selected, pest-free seasonal greens and tubers stored under optimal temperature control.
Frozen Veg	Flash-frozen using IQF technology without added chemical preservatives or artificial color.
Fresh Fruits	Export-grade handpicked fruits categorized by uniform color, crispness, and exact Brix levels.
Frozen Fruits	Fresh fruit chunks and pulp blast-frozen to preserve original aroma, sweetness, and nutrition.
Dry Fruits	Premium cashew nuts, almonds, and raisins, vacuum-packed to guarantee long shelf life.

3. Flours & Millets (Superfood Grains)

Milled Whole Flours

Bajra, Jowar & Ragi

Item	Nutritional Features & Applications
Flours	Stone-ground Whole Wheat (Atta), Refined Flour (Maida), and custom Multigrain blends.
Bajra (Pearl Millet)	Gluten-free, iron-rich whole grains and flour sourced from premium farming belts.
Jowar (Sorghum)	Rich in dietary fiber and essential minerals, ideal for gluten-free health diets.
Ragi (Finger Millet)	Calcium-dense ancient grain suited for health supplements, porridge, and baking.

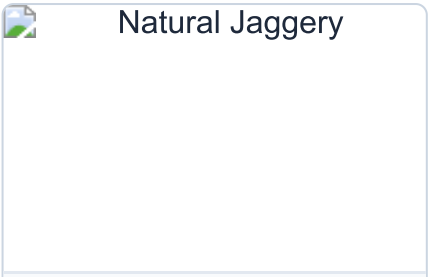

4. Sugar & Sweeteners

Refined White Sugar

Brazilian Sugar

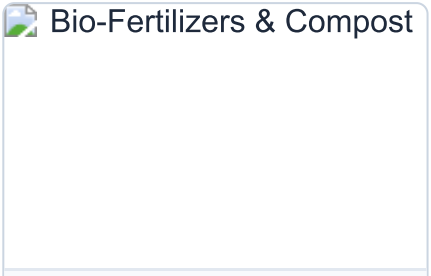

Organic Jaggery (Gur)

Sweetener Type	Commercial & Industrial Specifications
Normal Sugar	Pure white ICUMSA 45 granulated refined sugar (> 99.8% purity) for commercial food production.
Brazilian Sugar	High-purity ICUMSA 45/100 export-grade Brazilian origin sugar available for bulk shipment.
Jaggery (Gur)	100% natural, chemical-free organic jaggery blocks and powder enriched with vital minerals.

5. Fertilizers & Soil Care

NPK Fertilizers

Bio-Fertilizer & Compost

Fertilizer Grade	Soil & Crop Nutrition Features
NPK Fertilizers	Balanced Nitrogen, Phosphorus, and Potassium formulations tailored for crop growth cycles.
Bio-Fertilizer	Eco-friendly microbial inoculants that enhance root absorption and replenish soil nutrients.
Compost	Fully decomposed organic humus rich in organic carbon to boost soil structure and moisture.
Urea	High-purity agricultural-grade nitrogenous fertilizer for lush vegetative plant development.
